

A word cloud featuring various terms in different sizes and colors (red, green, orange). The words are arranged in a cluster, with some overlapping. The largest words are 'machine learning', 'Uncertainty', 'Tensor', 'quantification', 'Design', 'Automation', 'quantum', 'Computing', 'algorithms', 'circuits', 'Simulation', 'sampling', and 'robustness'. Other smaller words include 'Information', 'algebra', 'fusion', 'engineering', and 'Decision-making'.

machine learning
Uncertainty
Tensor quantification
Design Automation
Information algebra fusion
algorithms quantum Computing
engineering circuits Simulation
sampling Decision-making
dimensionality robustness
